BIG TEUTON SUBMARINE OPERATING OFF AZORES

(Associated Press by U. S. Naval Communication Service)
AN ATLANTIC SEAPORT, August 7.—Aboard a French steamer which arrived here yesterday were the crews of seven submarine vessels. They report the operations of a German submarine off the Azores which two of the captains of the submarine vessels report to be one of the largest in service. They say that she had a crew of 72 men and mounted two six-inch guns.

Six of the seven vessels were sunk off the Azores. They were three sailing vessels, one American, one Canadian and one Italian and three Norwegian steamers. The seventh crew was that of the British schooner Conquer which was abandoned by officers and crew off Flores, leaving so badly that it had become unmanageable.

Officers of the submarine vessels said that the commander of the submarine boarded their ships and ordered them to take to their boats. This done the ships were sunk by bomb explosions and the boats taken in tow by the big undersea craft. They were towed a considerable distance and then given directions to row or sail two or three days to St. Maria.

Reports reaching here say that the Greek steamer Charilaos Trikoupi was submerged and the crew rescued by an American destroyer which picked them up the day following the sinking of their ship.

DRAFTED GUARDSMEN PRIVILEGED TO VOTE
(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., Aug. 7.—Guardsmen who are drafted will have an opportunity to vote in the November elections provided that their states will make the necessary arrangements.

Provost Marshal General Crowder said last night that whether in cantonments in the country or in service in the trenches in France guardsmen who are drafted will be allowed to vote provided that the respective states will establish voting machines. The only difficulty in the way of such soldiers exercising their suffrage would be the necessity of state legislation to make the requisite arrangements.

SLAVS SHOW SIGNS OF STIFFENING UP
(Associated Press by U. S. Naval Communication Service)
NEW YORK, N. Y., August 7.—Petrorad claims that northeast of Czerowitz attacking forces succeeded in driving the Teutons back and out of several villages. Several large guns, numbers of machine guns and a considerable quantity of ammunition and equipment were captured. Later, facing largely superior numbers, the attacking forces withdrew to the main positions.

In central Bukovina, around Dautz, the Teutons continued to make progress. They captured the town of Dautz itself and a number of nearby surrounding villages.

NAVY MAY TAKE ACTION TO SPEED UP REPAIRS
(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., August 7.—Delay in the completion of needed repairs to the German vessels taken over by the United States may cause the navy department to take them over and complete the work for itself. These delays are occasioned by labor disputes.

BITTER FIGHT IN SENATE ON FOOD CONTROL BILL

(Associated Press by U. S. Naval Communication Service)
WASHINGTON, D. C., Aug. 7.—Resumption in the senate of the debate on food control legislation brought some bitter exchanges between the senators. One of the most bitter of these was between Senators Chamberlain and Gore after Senator Reed had attacked the bill and vigorously assailed Herbert C. Hoover whom he said was not the man to head the administration of food control under a measure that gave such wide powers as those embodied in the bill under consideration.

Gore followed Reed and insisted that the conferees had yielded the best judgment of the senate to the desire and the judgment of the president. Senator Chamberlain then assailed Gore. He declared that he had consistently objected not to the food control bill alone but to every other administration measure, and that he never lost an opportunity to attack the chief executive by insinuating. This Gore vigorously denied.

Debate came up yesterday when the senate took up consideration of the report of the conferees committee of the compromise measure upon which they had agreed and on two points of which the senate had secured its desires as against those of the president. Leaders said yesterday afternoon that they expect the measure will pass tomorrow.

LABOR STRIKE TIES UP AUSTRALIAN INDUSTRIES
(Associated Press by U. S. Naval Communication Service)
SYDNEY, Australia, Aug. 6.—Twenty thousand men are out on strike tying up railroads and street railways. Manufacturers, as a defensive measure, are talking of stopping all industries. The labor situation has taken on a most serious and threatening tone.

In a struggle between the government and the labor unions a strike of railroad and street railway operatives has been called and 20,000 union men have responded to the call. Transportation is paralyzed and other industries are being seriously affected. This is especially so with the coal mines where work is greatly hampered and from most of which shipments have been stopped.

Manufacturers, who are prevented from securing supplies and delayed or prevented from filling orders, are seeking means to bring the struggle to a speedy end and there has been talk of closing down their industries. This would precipitate still further labor trouble and bring about sympathetic strikes causing a practical cessation of all industry.

Society Suffers in Summer
Possibly there is nothing more annoying to a red-headed woman than offensive perspiration or body odors. These abominable social pests have been well exemplified in the experience of Dr. M. E. Charrier, Faculté de Paris, France. Dr. Charrier uses a sponge bath made of 1 oz. Tyree's Antiseptic Powder in one gallon of water as preventive and cure. He says he finds the powder to be a deodorizer and stimulant of the skin and an alleviator of pain. Two teaspoonfuls of the pure powder in a pint of water give him excellent results in a case of Poison Aft after all other remedies had failed. Similar happy effects were obtained from the use of the same strength solution in Eczema.

The tender skin of a child is exceptionally sensitive to heat. Tyree's Antiseptic Powder used either dry, mixed with talcum, or in solution as a sponge bath gives the little one comfort from all such painful affections.

The doctor further suggests to social patrons the use of Tyree's Powder instead of poisonous talcum, carbolic acid, peroxide, etc., as it is in every way more agreeable and the results accompanying its use are much to be preferred to the dangerous and disagreeable agents now in use.

It is sold in packages at 25c and \$1.00 by the manufacturer, J. S. Tyree, Chemist, Inc., Washington, D. C.
